6(E) Smart Garden

Description :

- Drag and drop server, home router, laptop, lawn sprinkler and Water Level Monitor
- Configure server with IP address “192.168.1.10” and default gateway “192.168.1.1”
- Configure default gateway “192.168.1.1” in the home router
- Configure the SSID and WPA for the router
- Connect the router service with lawn sprinkler, laptop and Water level monitor
- Connect the IoT server with lawn sprinkler and water level monitor
- Configure conditions for the devices
- Start the process
